This best-selling, widely lauded resource has been carefully revised to be the most important edition yet. Clinicians have come to depend on this accessible, easy to navigate resource manual for a wide range of procedures and materials for obtaining, interpreting, and reporting assessment data. In this new edition, you ll find a new

chapter on literacy, including much-needed information on reading and writing assessment. There is also updated and expanded coverage of autism, auditory processing disorders, and pediatric dysphagia. The reproducible, customizable forms have been updated as needed, both in the text and in the accompanying CD-ROM, giving you unlimited access to these clinical resources. Now in beautiful full color, all illustrations have been completely updated for greater clarity and diversity. Additionally, chapters are color coded for easy navigation. Clinicians, instructors, and students all agree that this is one of the most valuable assessment resources available to speech-language pathologists.
