

# Manual of Clinical Oncology (UICC International Union Against Cancer)

[Manual of Clinical Oncology \(UICC International Union Against Cancer\) 下载链接1](#)

著者:Love, Richard R. 编

出版者:Springer

出版时间:1994-11-29

装帧:Paperback

isbn:9783540581932

This pocket-sized volume is written for doctors-in-training and in practice. Its chapters by international clinical experts, emphasize: - Underlying principles of cancer biology and pathophysiology critical to optimal treatment; - Common worldwide problems (e.g., smoking, palliative care) and diseases (breast, liver, lung, and stomach cancers); - Practical up-to-date information - Carefully selected, widely available, secondary sources. Practitioners at all levels will find this Manual comprehensive yet concise, very readable, with understandable illustrations and useful, well organized tables.
