

A Practical Guide to Solaris

[A Practical Guide to Solaris 下载链接1](#)

著者:Mark G. Sobell

出版者:Addison-Wesley Professional

出版时间:1999-06-20

装帧:Paperback

isbn:9780201895483

Sobell's book combines the strengths of a tutorial and a reference so that beginners and experienced users alike will gain the knowledge and develop the skills to learn and use Solaris-the Sun Microsystems version of the UNIX operating system. An excellent on-going resource for reference, this book requires no programming experience, and is

compatible with all releases of Solaris 2.x and both the Intel (x86) and Sparc versions of Solaris.
