All parents want their children to thrive and succeed, but Latino parents face a unique set of challenges -- passing along our much-cherished cultural traditions and values, while sending our sons and daughters into an increasingly fast-paced and often homogeneous world, where it's easy to lose sight of "nuestra familia" and the legacy of past generations. Now, an award-winning Latina in the field of early childhood education (and a mother herself) has assembled an indispensable reference for Hispanic parents and caregivers of children from birth to age twelve. A practical reference as well as a precious treasury of "la cultura, Raising Nuestros Ninos" covers: * Our History, Traditions, and Culture: Lessons to share with your children, and simple ways to enrich your child's development and self-esteem as you celebrate your heritage* Your Child's Social, Emotional, and Intellectual Skills: How to encourage these vital areas of a youngster's development, and why an environment rich in Latino culture will enhance your child's future* The Value of Family and Community: The cornerstones of effective parenting that have supported and nurtured generations of Latino households Filled with the latest research as well as personal anecdotes, songs, recipes, "dichos, " and games, "Raising Nuestros Ninos" will provide a rich cultural framework designed to help you parent effectively and responsibly, as you pass along the priceless gift of "nuestra cultura."
