One of Barron's most popular and appealing picture books with surprise picture flaps for baby is now available in a brand-new Spanish-language edition that complements its English-language version. A different animal appears on each page, its face covered

peek-a-boo-style by a large picture flap. When Mom or Dad swings the flap open for baby to see, the friendly animal shows its smiling face. The " Peek-a-Boo " book shows a cat, a dog, a cow, a hen, a pig, a duck, and a lamb on each successive page. On the last page, it is baby himself who hides his face when appears with a smile when the peek-a-boo flap is lifted. A companion book " Peek-a-Boo Jungle ," is also available from Barron's in both English and Spanish language editions.
