This study presents an approach to metaphor that systematically takes contextual factors into account. It analyses how metaphors both depend on, and change, the context in which they are uttered, and specifically, how metaphorical interpretation involves the articulation of asserted, implied and presupposed material. It supplements this semantic analysis with a practice-based account of metaphor at the conceptual level, which stresses the role of sociocultural factors in concept formation.

哇这本书讲得挺清晰！主要是总结和批评现有理论，虽然有些部分看着有点头秃，不过多看几遍还是基本能啃下来的
