This country has been sick, this country needs healing, this country needs medicine - in fact I'd go so far as to say that, what this country really needs, right now, is a Doctor.

作者介绍:

There can be no doubt that this is the time for Harold Saxon. In a troubled age, he has stepped forward. He has embraced his destiny and not flinched from the huge challenges that lie ahead. Remind you of anyone?

Winston Leonard Spencer-Churchill, the man who was called upon to lead his country in its darkest hour and made it Britain's finest. The parallels are uncanny.

Both men could be described as blessed with the common touch. Churchill showed boldness and imagination as a military leader: Harold Saxon's policies demonstrate his desire to replicate that brilliance. Both are considered legendary orators, lifting the spirits and calming the troubled breast. When Harold Saxon addresses the nation it listens, awed.

Harold Saxon understands our difficulties and knows how to deal with them. It is as though he addresses each of us personally, reaching straight into our hearts.

书评

当年你坐我隔壁桌，每节课你平均打瞌睡55次，其中打哈欠40次，脑袋磕到桌面8次，深度睡眠2次，多梦浅睡眠3~4次，假寐1~2次。每科老师都会带着两盒粉笔来上课，其中一盒板书用，一盒专门掰成小块用来当砸醒你的武器。
当年你坐我隔壁桌，每到下课你就伸出腿来绊倒后面的同学...
