Googol and Googolplex are on a mission to learn about Earth by collecting a number of items including a blackbird's song, snowballs and a chocolate bar. Pippa and Troy are happy to help, especially when they get to ride to the North Pole in a spaceship. But when they return, Martin, the bully next-door, sees something that he shouldn't. Nelly Kazenbroot is a published poet, a lyricist and an artist. She built two tiny robots from Lego for her young children and gave them silly voices and named them Googol and Googolplex. Now her characters live in print. Down the Chimney with Googol and Googolplex is the first of two books in the Googol and Googolplex series. Book two is Under the Sea with Googol and Googolplex
