In the near future, the only thing growing faster than the criminal population is the Electric Church, a new religion founded by a mysterious man named Dennis Squalor. The Church preaches that life is too brief to contemplate the mysteries of the universe: eternity is required. In order to achieve this, the converted become Monks -- cyborgs with human brains, enhanced robotic bodies, and virtually unlimited life spans.

Enter Avery Cates, a dangerous criminal known as the best killer-for-hire around. The authorities have a special mission in mind for Cates: assassinate Dennis Squalor. But for Cates, the assignment will be the most dangerous job he's ever undertaken -- and it may well be his last.

"Some debuts simply set new bars in a genre. Jeff Somers' THE ELECTRIC CHURCH is one such book, a gritty noir story that challenges and surprises with every page. A novel that is equal parts Raymond Chandler and William Gibson. A major new talent has arrived -- and it's about time!"

-- James Rollins, New York Times bestselling author of MAP OF BONES and BLACK ORDER
