Kids see themselves in "Little People Shape Booksa" big, imaginative cover illustrations This brand-new additions to the series of childrenas favorites will inspire very young boys and girls with thoughts about things they might like to do when they grow up. The sturdy board book is die-cut so that when closed it takes the shape of the child who appears on the front cover, decked out in an appropriate costume. The story on the inside panels is easy for beginning readers, and direct enough for pre-schoolers to understand when the book is read aloud to them. There are bright color illustrations on every page. When closed, the book presents an attractive, layered, three-dimensional effect.
