The last several decades have witnessed an explosion of research in Platonic philosophy. A central focus of his philosophical effort, Plato's psychology is of interest both in its own right and as fundamental to his metaphysical and moral theories. This anthology offers, for the first time, a collection of the best classic and recent essays on central topics of Plato's psychological theory, including essays on the nature of the soul, studies of the tripartite soul for which Plato argues in the Republic, and analyses of his varied arguments for immortality. With a comprehensive introduction to the major issues of Plato's psychology and an up-to-date bibliography of work on the relevant issues, this much-needed text makes the study of Plato's psychology accessible to scholars in ancient Greek philosophy, classics, and history of psychology.

评论

这本论文集集中了讨论了柏拉图灵魂学说的主要问题，包括“灵魂是三分的”、“灵魂是整体的一”、“灵魂的不朽”、“灵魂的本质”，收录的是英美古希腊哲学研究的高水平论文。我从中受益良多。
