isbn:9780966594744

This practical handbook challenges both new and experienced teachers to review their thoughts and practices on 60 important issues that confront them throughout their careers. Topics include what students should learn in 12 years, how teachers can help students build self-esteem, the place of religion and politics in the classroom, and how teachers can make a difference in students' lives. Issues are presented as challenging questions followed by several possible solutions. Space for writing and reaction is provided, engaging teachers directly with the text and making them active thinkers and players in the field of education.
