You look straight ahead. You try to breathe normally. You can smell the scent of the huge cat that is staring back. You are a cameraman. He is the King of Beasts. Your only thought is "I hope he has already eaten today." Let National Geographic Explorers-in-Residence Dereck and Beverly Joubert bring you closer to the power and majesty of the regal African lion. With fewer than 25,000 wild lions now left on Earth, the award-winning filmmakers and naturalists make a passionate plea to readers to take an active role in securing a future for these magnificent creatures.
