isbn:9780314037206

An interdisciplinary and jurisprudential primer that seeks to ground students in basic concepts that undergird and influence legal reasoning and process. This text is

presented in clear and compelling prose that efficiently plugs this common gap in baseline knowledge. Student-friendly orientation that synthesizes numerous books on individual topics to create a full-blown inquiry into various jurisprudential fields. An even-handed and efficient student guide that includes Theory and the Law; Law and Economics; Political Philosophy and Law; American Governmental Structure: Its Impact on Law; Law, Dispute Resolution, and the Adversary System; and Historical, Jurisprudential, and Multidisciplinary Influences on Law.
