"The Shaping of American Anthropology" is a book which is outstanding in many respects. Stocking is probably the leading authority on Franz Boas; he understands Boas's contributions to American anthropology, as well as anthropology in general, very well. . . . He is, in a word, the foremost historian of anthropology in the world today. . . . The reader is both a collection of Boas's papers and a solid 23-page introduction to giving the background and basic assumptions of Boasian anthropology."--David Schneider, University of Chicago

"While Stocking has not attempted to present a person biography, nevertheless Boas's personal characteristics emerge not only in his scholarly essays, but perhaps more vividly in his personal correspondence. . . . Stocking is to be commended for collecting this material together in a most interesting and enjoyable reader."--Gustav Thaiss, "American Anthropologist"

马克思是永恒的大牛，但对意义的探讨博厄斯是真鼻祖，secondary elaboration简直是无敌的。

对于文化界限的理解对于后现代人类学理论对于文化的定义，私以为，是有着借鉴价值的。也许把文化的基础理解为交互性的存在可以作为对于仪式研究的补充？
