These essays chart major contributions to recent historiography. Carefully selected for their accessibility and accompanied by headnotes and study questions, the essays offer a clear and engaging introduction for the non-specialist. The introduction

describes the emergence of gender as a subject of historical investigation and in ten essays, historians explore the meanings and significance of gender in American history since 1890. The volume shows how the interpretation of gender expands and revises our understanding of significant issues in twentieth-century history, such as work, labour protest, sexuality, consumption and social welfare. It offers new perspectives on visual representations and explores the politics of historical subjects and the politics of our own historical revisions.

评论

拿错书了。各篇文章编攒在一起，貌似一主题多领域，然各领域涉入程度不一。嫌杂乱，重点不明。文字过学术，废话多，对“研究”内容显得不淡定。无灵魂，不诱人。
