Ancient Civilizations Pop-Ups (In association with British Museum Publications)
Tarquin pop-ups are a special kind of 'do-it-yourself' activity book. Not only is there the fun of making the scenes and seeing them pop-up but they are full of interesting information and ideas. Each book contains six main scenes to make and there are a number of mini pop-ups as well. Close the book and they fold away. Open it and they pop up again. These vivid colorful 3-dimensional scenes help to bring Ancient Civilizations to life in a way which no other kind of book can. And London and Paris make wonderful souvenirs for visits already made, or perhaps planned for the future.
