出版者:

出版时间:2005-2

装帧:

isbn:9783932565380

This title features text in German. The fairy-tales by the Brothers Grimm presented in this book were selected and illustrated by the artist Dorothee Menzel, who lives with

the German scholar Carl Wege in a little village near Bremen. The artist's pictures seem to restore the unity of man and nature. The charm of the numerous colour illustrations makes it possible for both children and adults to relate to the world of folk poetry in a new way.
