Wee-skin-and-bones isnt like the other little pigs, who tease him for being different. So he runs away from home, into the middle of a great dark forest. There, with some help

from an unexpected friend, Wee-skin-and-bones learns that it doesnt really matter if your tail isnt curly and whirly and your ears arent flippy-flappyits how you feel on the inside that counts. With playful, exuberant text and endearing illustrations, John Richardson has created a reassuring story for young children about the unconditional love of family and the importance of celebrating ones differences.
