Mick Johnson is determined not to make the same mistakes his father, a failed football hero, made. But after being tackled just short of the end zone in a big game, Mick begins using "gym candy," or steroids. His performances become record-breaking, but the side effects are terrible: Mick suffers 'roid rage, depression, and body acne. Gym Candy's subject matter is just as hard-hitting as its football scenes. You'll find yourself unable to look away as Mick goes down a road that even he knows is the wrong one to travel.
