"Voake's sibling homage reminds us that family harmony can happen even when the children sing separate songs." — THE NEW YORK TIMES BOOK REVIEW

Charlotte and Simon are twins, but they couldn't be more different. Charlotte likes to build things, and Simon likes to knock things down. Simon likes to draw shapes over and over, and Charlotte likes to copy the numbers on the clock. And they don't even

look much alike! But whether upside down or right side up, these two like each other just the way they are. Here is an acclaimed tale about twins that doubles as an ode to individuality — and a celebration of sibling bonds.
