An introductory outline of the historical development of Shinto from the ancient period of Japanese history until the present day. Shinto does not offer a readily identifiable set of teachings, rituals or beliefs; individual shrines and kami deities have led their own lives, not within the confines of a narrowly defined Shinto, but rather as participants in a religious field that included Buddhist, Taoist, Confucian and folk elements. Thus, this book approaches Shinto as a series of historical "religious systems" rather than attempting to identify as timeless "Shinto" essence. This history focuses on three aspects of Shinto practice: the people involved in shrine worship, the institutional networks that ensured continuity, and teachings and rituals. By following the interplay between these aspects in different periods, a pattern of continuity and discontinuity is revealed that challenges received understandings of the history of Shinto. The book does not presuppose prior knowledge of Japanese religion and is easily accessible for those new to the subject.

作者介绍:

目录: Translators' introduction
Introduction What is Shinto?
1. Ancient and Classical Japan: The Dawn of Shinto
2. The Medieval Period: The Kami Merge with Buddhism
3. The Early Modern Period: In Search of a Shinto Identity
4. The Modern Age: Shinto Confronts Modernity
