This book offers readers tools that can help them reconnect with God. This comprehensive guide to spiritual renewal offers practical advice to anyone who has ever felt stuck in their prayer life or has felt that God seems far away. Author Marci Alborghetti experienced a "prayer paralysis" when she was diagnosed with malignant melanoma. "Prayer Power" grew from Alborghetti's own fears and uncertainties. With real-life examples and model prayers, Marci Alborghetti offers time-tested, practical strategies to help lead readers back to prayer and -- through prayer -- to God. Specific points of need include caregiving, times of mourning, periods of illness, when dangers threaten, and feelings of failure. "Prayer Power" is based on a simple but profound truth: While we may lose touch with God, God never loses touch with us.
