The Cambridge History of Latin America is a large scale, collaborative, multi-volume history of Latin America during the five centuries from the first contacts between Europeans and the native peoples of the Americas in the late fifteenth and early sixteenth centuries to the present. Ideas and Ideologies in Twentieth-Century Latin America brings together chapters from Volumes IV, VI, and IX of The Cambridge History to provide in a single volume the economic, social and political ideologies of Latin America since 1870. This, it is hoped, will be useful for both teachers and students of Latin American history and of contemporary Latin America. Each chapter is accompanied by a bibliographical essay.
