isbn:9780742548923

This 6th edition of S. Morris Engel's engaging and critical work preserves the strengths of the earlier editions D intriguing examples and timely reflections on the major fields of philosophical inquiry (ethics, metaphysics, and epistemology) by some of the most

important minds in the history of ideas (Plato, St. Thomas, Wittgenstein) D and expands the discussions of those fields. The new edition also incorporates expanded explorations of contemporary discussions in fields of continental and analytic philosophy, theories of justice, and feminism.
