装帧:Paperback

isbn:9780812695274

Professor Grene is the 29th subject in a series that includes Albert Einstein, John Dewey, Jean-Paul Sartre, and Bertrand Russell. This book includes photographs, 25 critical essays by Grene’s distinguished peers — and her biting replies. She is known for her work — and her controversial views — in several areas including the philosophy of law, anthropology, and biology.
