Mona and Uriah began planning their own destination wedding only to have a very hard time finding any written literature that was comprehensive enough for their needs. From the overwhelming task of how to begin and select a location, to planning the guest list and arranging travel, there was information available, but it took a lot of digging and none of it seemed to be in one place. With this book, they hope to share some of their own experiences, ideas, and opinions and compile a comprehensive resource that anyone can reference while planning the ultimate destination wedding of their dreams From how to select a location, to useful templates for wedding week itineraries and guest list managers for multiple celebrations, this book will be your best friend throughout the coming months of your wedding planning.
