Every other year Danish Crafts publishes a nationwide guide - Danish Crafts, Shops & Galleries - presenting a number of Denmark's leading craft shops and galleries.

The purpose of the book, in Danish and English, is to draw attention to the large number of shops and galleries offering Danish crafts. Thus the guide is aimed at both those wishing to enrich their everyday lives with crafts and at prospective buyers with an interest in one-off works and who consider crafts a collectible investment.

Participating shops and galleries represent a high level quality when it comes to workmanship and artistic skill in Danish craft, executed by professionally trained craft artists.

The 2009 edition presents 69 shops and galleries and sells from leading galleries and bookshops throughout Denmark.
