What was his life like before he hit it big? What movies, books, and music inspired him? Who gave him his first break? Who turned him down? What does he have to say about his costars, including Ben Affleck? What does he have to say about the directors and big-time producers with whom he's worked? How does he handle being so famous?

And what's next? Now you can get to know the real Josh Hartnett, the critically acclaimed actor and Hollywood heartthrob. Josh has been compared to Leonardo DiCaprio, Tom Cruise, Rob Lowe, Matt Damon, and Freddie Prinze, Jr. -- but he stands alone. And he still doesn't understand why girls find him so attractive ("I'm just a scrawny little thing"). Packed with color photos, the details of his life story, and the inside scoop you need to know, this book is a must-have for every Josh fan.

"No matter how famous I get, I will still live the life that I want." -- Josh Hartnett
