This title features everything you ever wanted to know about bugs. It helps your child to unearth all the best facts about the bug world. In it, they'll discover which insect fires acid from its abdomen, whether all bugs have brains and what makes a flea flea. Through far-out facts and eye-popping pictures they'll discover how insects see, hear,

taste, smell and feel their way around. Find out what happens during the extraordinary process called metamorphosis and meet the good, the bad and the ugly of the bug world. From spiders who think they are insects to the stick that's not a stick, introduce your child to the fastest, deadliest, friendliest, weirdest and most amazing insects on Earth.
