The book lifts the veil on the excesses of the wedding industry - the scams which inflate the prices of everything from flowers to cakes to marquee hire and the wedding disaster stories of high jinxing at the altar and disastrous low comedy in the speeches.

It highlights how the potential for things to go horribly wrong is never higher than at a wedding and how the dream day is never far from becoming a nightmare. The book was reviewed in the Daily Mail

Wedding Babylon follows the style of Hotel Babylon and Air Babylon.
