BATTLESHIP has been a classic board game since 1967, and a favorite of players everywhere. So fans will be thrilled to know that it’s now captured between two covers so that they can easily take these engaging puzzles anywhere. The object is the same: locate the fleet of ships through logic and deductive reasoning. The numbers along the edge of each puzzle tell you how many ships appear in that particular row or column, and it’s up to the reader to pinpoint the location of four submarines, three destroyers, two cruisers, and one battleship. Use basic strategies to solve these terrific little mind-benders. No life jacket required!
