As a techie, you're a special breed, with special challenges facing you in the job search. Your competition is smart, tech-savvy, and highly resourceful. Expectations among employers are higher. Your competition will run you over if you're not up to the challenge. "Job Hunting in the Tech World" gives you the background, the skills, and the hard-won wisdom to bypass the mistakes of those who don't prepare. You might not think you need this book. Conventional Wisdom has it that finding a job is simple: send some resumes, go on some interviews, and take the offer that sounds best. But that's only the start. You've got the background and skills to work the Web and other resources that the general job seeker doesn't. This book shows you how to take advantage of those skills or be left behind by competing techies who do. It all starts with an examination of you, your strengths, and where you want your career to take you. Without a roadmap, you'll wind up in any old job. Life's too short to spend in a job that you don't love. From there, you'll see how to find the job you want that fits you and the employer, using your technical and web savvy to find the hidden jobs that never make it into the classifieds or Monster. 'Marketing' is not a dirty word, and you'll learn how to present yourself, your skills, and your background in the way that shows the hiring company that you're the right person for the job. Create a resume that tosses out conventional wisdom, write cover letters that sell your background, and assemble a portfolio of work that will wow the interviewer. Social networking has been the darling of the Web in the past few years, but it's no substitute for the sort of personal interaction that makes relationships that help in future careers. As one manager said, 'One recommendation is worth a million resumes'. This book shows you how to make and maintain the connections that will drive your future career moves. "Job Hunting in the Tech World" pulls no punches and lays out the details for what gets you an interview, and gets you hired in a job in the technical world that makes you happy.

书评

要是在上大学的时候我就能看到这本书就好了，不过现在看到也不晚。这本书给出了一些很好的建议，并且几乎考虑到了求职面试中的所有细节问题。无论是否正在求职，每个人都应该看一遍，然后把它放在手边作为参考。
但是无论如何，工作本身才是最重要的。如何找工作不应该凌驾于...

这两年大家也看到了，外界经济环境很差，B端C端都不爱掏钱，很多曾经风口上的公司应声而倒，裁员、关停导致的失业比比皆是，即便如此，依旧有一些新公司，新模式崛起，比如抖音和拼多多。
作为互联网人面对这种情况已经不是第一次了，行业相关招聘少，待遇不如从前，焦虑是大部...

虽然有些内容不适合国内的求职者，但大部分原则是通用的，读这本书最大的收获是求职需专攻，切记广撒网。
科普1：做好调查工作，在求职前了解这份工作是否合适，是否满足职业规划总比被录用后发现不合适要好 科普2：任何招聘网站、猎头都是为招聘公司工作的
科普3：切忌广撒...
