Printed in eye-catching full color, this is the Sudoku calendar that sets the standard with an engaging new puzzle-hand-designed by the masters at Nikoli, the Japanese publisher that launched the Sudoku craze-for every day. Each pits you against its creator and possesses a level of challenge, nuance, and elegance that computer-generated puzzles can't match. The calendar begins with the easiest puzzles each weekend, and offers progressively more difficult ones over the course of the week. For Sudoku lovers, it's a daily fix.
