Curious babies will love this new Baby Einstein board book, featuring stunning full-color photos of neighborhood animals with touch and feel panels. Babies will be introduced to animals that live in their neighborhood through endearing text and delightful illustrations. Baby Einstein Books is an imprint of developmentally appropriate, interactive books designed to introduce children ages 0-3 to classic poetry, art, and foreign languages in a fun and accessible way. A combination of playful images, beautiful photography, and bold illustrations with multilayered text will captivate and stimulate babies and young children. This "humanities for babies" program, based on the award-winning video series, taps into the natural learning

potential of young children--and their parents' aspirations for them.
