A New Generation of Knitted Hats

A knitting Hat book with a difference! 24 contemporary designs using the sideways construction method. Knitted on straight needles using short rows for shaping and provisional cast-on & kitchener stitch for a professional, seam free finish.

Each Hat pattern is sized with 3 adult sizes, S (18/19"), M (20/21") and L (22/23"). All patterns are provided in both written and charted format.

Full colour, detailed tutorials are included, of which 8 are for kitchener stitch. This book is aimed at intermediate level knitters and a reasonable level of knitting skill is required. In these patterns, row gauge rather than stitch gauge is the important factor.

Postage and packing is charged at only £3.00 to anywhere in the world. Additional books despatched free of charge.

Please note your card, Paypal or Google account will be charged on checkout.
