This dual-layer DVD shows complete demonstrations of more than 30 key nursing

assisting skills and procedures. In addition to teaching step-by-step technical skills, and in keeping with the focus of "Lippincott's Textbook for Nursing Assistants, Second Edition" and "Lippincott's Essentials for Nursing Assistants", the videos promote qualities such as compassion and empathy, and demonstrate non-technical skills such as respecting the individual, caring for people with dementia, coping with death and dying, and entry into the workforce. The dual-layer DVD will play on a computer or a DVD player, and will allow students to review key skills at their leisure.
