isbn:9780849394003

This comprehensive 6-volume reference library provides an economical training, research, and reference resource for professionals involved in the non-technical aspects of energy management. It comprises six valuable references, Dictionary of Energy Efficiency Technologies, Handbook of Financing Energy Projects, Information Technology for Energy Managers, Investment Grade Energy Audit, New Technologies for Energy Efficiency, and Web Based Energy Information and Control Systems, presented in pdf format. This easy-access CD-ROM features over 2300 pages of text, graphics, charts, and illustrations and is indexed with bookmarks for convenient navigation.
