The Flash Magic books are critical and best-selling successes. New Riders, in partnership with David Emberton will continue to develop Flash Magic titles that give the Flash development community what they continue to ask for: the highest quality projects-based tutorials, featuring timesaving techniques, practical applications and inspiration in an elegant design, appealing to both designer and developer. This book will have completely new projects, specifically geared towards the intermediate user and more tips and notes. The CD-ROM includes all the project files necessary to complete each project in the book. Source code is provided so readers can cut, adapt, and paste into their own professional work. A companion Web site covers troubleshooting. URL: www.flash6magic.com. Previously announced in April 2002 PTG catalog.
