isbn:9780714849683

The Modernist House is a global survey of 100 houses, covering an astonishing array of architects, cultures, styles, materials and designs. This collection ranges from the iconic masterpieces of the early twentieth century to today's manifestations of this revolutionary movement. The houses are presented in chronological order and each entry features a full-page image with a short text describing the house, its designer and historical context.
