Welcome to the future. This title presents the iconic work of a singular architect. In 2004, Zaha Hadid became the first woman to win the Pritzker Prize. In the past decade, she has completed a plethora of structures including the Rosenthal Center for Contemporary Art in Cincinnati, the Phaeno Science Center in Wolfsburg, Germany and the Central Building of the new BMW Assembly Plant in Leipzig. There is no doubt that Zaha Hadid has joined the elite of world architecture with her recent work, her audacious and futuristic-looking designs having catapulted her to international fame. Born in Baghdad, Iraq and educated in London, where her practice is based, Hadid has been shaking up the foundations of architecture for over 30 years and is now the subject of a massive Taschen monograph. Covering her complete works to date, and all of her exciting new work from Dubai to Guangzhou, this XL tome clearly demonstrates the progression of Hadid's career - including not only buildings but also furniture and interior designs - with in-depth texts, spectacular photos, and her own drawings. Also included is a special section with translucent vellum paper allowing multiple layers of designs to be viewed at once or separately.

## 评论

扎哈年鉴超大本，又大又重

-----  
在办公室就翻翻看

-----  
@永恒的流动：扎哈·哈迪德×跨界 Eternal Flow, Zaha Hadid Design×Crossover  
Capital Hill Residence ...

-----  
看看女魔头的构成画，再看看她的建筑及家具设计，后者简直弱爆了！

-----  
爱死了那些充满构成意味、交叉和冲突着的墙和线条——但建筑师不是纯粹的意识流，

把空间/平面构成合理化的过程也许更加富有挑战而愈显精彩。

-----  
以前对她不是很了解 现在被她的各种图纸酷裂了！！ ...

-----  
对于建筑这样一个大体量的工程，如果想要get a complete architectural work done，想必建筑师要足够强大且能足够包容孤独吧。

-----  
图很多很细，美中不足是英德法注释都有些形式...

-----  
目前看到最全的一本书，最后一个项目是2008年的。不过资料还是很少。大部分是大张照片。
