装帧:Hardcover

isbn:9789063691967

This is the ninth edition of the most comprehensive overview of Dutch architecture today. It is composed of the recent projects of about ninety-seven architects, interior architects, urban planners, and landscape architects. The book is an excellent way to gain a first visual impression of the signature style of Dutch architects and what they have to offer, while the website (www.archined.nl), is a handy tool for selecting offices

by objective criteria. Dutch Architects #9 is the ultimate guide to the field of spatial design in the Netherlands.
