出版者:Springer

出版时间:2008-10-01

装帧:Hardcover

isbn:9780792368922

This book presents a complete development of the new structural classification of

minerals, which is based on the internal crystal structure, and therefore is its natural classification. Because of the large domain of the mineral kingdom, this book is divided in three volumes, where the minerals are ordered from the structurally simple to the more complex. This work will be of particular interest to teachers and research workers in Mineralogy, and also in Inorganic Crystal Structures in universities.
