

Perl Database Programming

[Perl Database Programming 下载链接1](#)

著者:Brent Michalski

出版者:Wiley

出版时间:2002-11-07

装帧:Paperback

isbn:9780764549564

The author is an experienced Perl user who maintains the Perl area of Dr. Dobb's Journal Website. This is the first book to cover the full range of Perl database programming topics. It discusses practical applications such as online catalogs, Web-based photo databases, and Palm-powered applications.
