This volume gathers leading figures from legal philosophy and constitutional theory to offer a critical examination of the work of Robert Alexy. The contributions explore the issues surrounding the complex relations between rights, law, and morality and reflect on Alexy's distinctive work on these issues. The focus across the contributions is on Alexy's main pre-occupations - his anti-positivist views on the nature of law, his approach to the nature of legal reasoning, and his understanding of constitutional rights as legal principles. In an extended response to the contributions in the volume, Alexy develops his views on these central issues. The volume's juxtaposition of Anglo-American and German perspectives brings into focus the differences as well as the prospect of cross-fertilization between Continental and Anglo-American work in jurisprudence.

评论

看了墨菲（对finnis批判很有启发，偏离不是缺陷），加德纳（关于主张），保尔森（好啰嗦，中间德国哲学史部分快速翻过），亚历山大（没怎么看懂），肖尔（对平衡和函摄结构上的批评）
