出版时间:2008-3-1

装帧:Paperback

isbn:9780143113201

An extraordinary mythology has grown up around the Third Reich that hovers over political and moral debate even today. Adam Tooze's controversial new book challenges the conventional economic interpretations of that period to explore how Hitler's surprisingly prescient vision- ultimately hindered by Germany's limited resources and his own racial ideology-was to create a German super-state to dominate Europe and compete with what he saw as America's overwhelming power in a soon-to-be globalized world. The Wages of Destruction is a chilling work of originality and tremendous scholarship that is already setting off debate in Germany and will fundamentally change the way in which history views the Second World War.

评论

了解科学射烩主义各国历史再读这书，感想应该是：纳粹真TM尊重私有产权啊

大概可以视作从经济史的角度重审nazi regime的rational aspects，以及它与racial ideology的深层联系，主要chapter 14,15,16
