Grades Pre-K and K. Children love to listen to storybooks. Children see and hear the English they've learned come alive through storybook characters. Hearing and reading

the storybooks will enhance the English they use in and outside of the classroom. Each of the nine storybooks has suggestions for before, during and after reading the story s well as an activity specific to each book. The nine storybook themes correlate to the Balloons series, or can be used to supplement any program.
