isbn:9780521799904

Objective CAE contains thirty short units which take a fresh approach to a wide variety of topics, and examine related genres useful for the exam. Authentic language examples illustrate a wide range of real English usage and a ?Grammar folder? appendix provides further examples and explanations. The course is written by

experienced examiners who have an in-depth knowledge of the CAE exam, and contains material informed by the Cambridge Learner Corpus which highlights typical mistakes made by CAE candidates. A Student's Book, Self-study Student's Book, Audio CD set and Workbooks with and without answers are also available.
