isbn:9780761152675

One piece of paper, with so many possibilities! From Margaret Van Sicklen, passionate origami proselytizer and author of the bestselling book "The Joy of Origami," this calendar brings the fun and creativity of origami to every day of the year. Fold a graceful lily, a spinning helicopter, a five-tiered pagoda. A whole menagerie of animals-cats to peacocks to sea horses-plus a rocket, a festive sombrero, a dollar-bill armadillo, and hearts and stars galore. The models are for every level of origami hobbyist, and the perfectly square, colorfully patterned pages double as folding paper. Includes weekend trivia and lore, and a separate "Origami Key" with clearly explained

base folds, symbols, and other helpful hints.
