This is a breathtaking and inspirational exploration of planet Earth. From the fiery mass of the Earth's core to the tip of the highest ice-capped mountain, explore every aspect of our planet in awe-inspiring photographic detail. Visit 400 of the tallest, longest, widest, most significant and most unusual physical features on Earth, from volcanoes, deserts and rivers to weather systems, rocks and minerals. Then take a look at the

health of our planet and discover about the interaction between people and the environment. This is a new compact edition of Earth.
